Projects

Readiculous – Hybrid Book Recommendation System

January 2025 - May 2025

- Developed a mobile-based hybrid recommendation system in Flutter (Android/iOS) integrating content-based and collaborative filtering, trained on the GoodReads 100k dataset for personalized book suggestions and library acquisition optimization.
- Built and optimized multiple ML models (XGBoost, KMeans, KNN, SVD, Logistic Regression), achieving 97.74% accuracy in rating prediction through advanced feature engineering and data preprocessing in Python.
- Designed and implemented the backend (Node.js, Flask, MySQL) and created an interactive Flutter UI/UX with prototypes in Figma, ensuring a seamless and user-friendly experience.

Uniquet App – University Finder Application

November 2024-December 2024

- Developed a cross-platform mobile app using Flutter and MySQL to help students find U.S. universities based on GRE/TOEFL scores, tuition fees, and location.
- Designed and implemented a MySQL relational database with CRUD operations for managing university and student data, including features for saving favorites and managing profiles.
- Used Node.js as a backend for connecting the database to the flutter application.

AI Summarizer

July 2023 – December 2023

- Led a team of 4 to design and develop an AI-powered text summarization tool, improving summarization efficiency by 35% through post-launch optimizations.
- Implemented NLP algorithms to extract key points from complex texts and conducted iterative testing to ensure clarity, relevance, and contextual accuracy.

Professional Experience

Netlink

Bhopal M.P

Digital Insight Intern

January 2023 - February 2023

- Customize web pages using HTML, Bootstrap, and CSS on shared web hosting cPanel.
- Contribute to Human resource management projects, designing pages, demonstrating the functionalities incorporated, implementing modifications

Education

Illinois Institute of Technology

Chicago, IL

Masters in Information Technology and Management (Data Science & Applied AI)

Expected December 2026

Lakshmi Narain College of Technology and Science

Bhopal, M.P

Bachelor of Technology in Electronics and Communication Engineering

June 2024

Skills & Interests

Languages: English, Urdu, Hindi

Programming & Development: Python, Dart (Flutter), HTML5, CSS3, Bootstrap, R Programming

Databases: MySQL, DBMS

Machine Learning & Data Science: XGBoost, KMeans, KNN, Logistic Regression, SVD, Feature Engineering, Data Preprocessing, Pandas

Frameworks & Tools: Flutter, Node.js, Figma, Git, Excel

Leadership Experience

Fashion Show, Lakshmi Narain College of Technology and Science

April 2022 – May 2022

Team Leader

- Led a team of 10 to organize and execute a college fashion show, coordinating design, choreography, and logistics, which resulted in a 20% increase in event attendance compared to previous years
- Developed and implemented marketing strategies, including social media campaigns and posters, reaching over 500 students, boosting participation and attendance by 15%

Project Management Excellence (PME) Club, IIT

August 2025 – Present

Social Media Coordinator

- Managed the club's social media across multiple platforms, creating engaging content to promote events and initiatives.
- Increased online engagement by 25% and collaborated with members on outreach campaigns, enhancing visibility among students and professionals.
